The BVCA'S TLR Event

for the industry, by the industry

Join us at the only technical private equity and venture capital conference to be completely devised, delivered and hosted by practising industry authorities

The BVCA's Tax, Legal and Regulatory Committees have joined forces for the second year to bring you a combined technical conference that addresses the practical impact of the complex and technical issues faced by private equity and venture capital practitioners and advisers.

Delegates will gain an enhanced understanding of the technical issues at a time when our industry is facing significant regulatory and taxation developments. The one-day conference also includes vital networking and contact-building opportunities and is exclusive to all BVCA members.

Sponsored by

TAX

David Huff Chair – Tax Committee 3i

“2010 is a fascinating year for the British tax framework, particularly in light of the state of the economy, the fallout of the general election and inevitable changes to come from it. I expect the tax treatment of interest and capital gains tax will feature on the agenda.”

LEGAL & TECHNICAL

Simon Witney Chair – Legal & Technical Committee, SJ Berwin

“The legal ramifications of tax and regulatory changes in our industry affect every department and discipline in a private equity house. Topics may include the evolution of private equity transparency and disclosure as well as fund structuring.”

REGULATORY

Margaret Chamberlain Chair – Regulatory Committee Travers Smith

“The EU Directive on Alternative Investment Fund Managers has been through many iterations and continues to change on a regular basis. Its amendments or even its application will be a hot topic on the day. It will continue to be a hot topic and may well be in final or near final form by then”

Who should attend

This event is suitable for BVCA members with a focus or specialism in:

- Finance
- Compliance
- Legal Affairs
- Tax
- Accounting
- Corporate and debt finance

NEW BVCA Recovery workshop

15 November 2010

This course will help you understand where the risks are in your portfolio and provide you with practical insights as to the various restructuring options and solutions you might have. This includes:

- Developing strategies to match the right solutions
- Reviewing the key issues in corporate restructuring
- Managing debt problems successfully for the future
- Improve your understanding of technical issues (accounting and lending)
- Benefit from the experience of successful recovery stories
- Anticipating difficulties and structuring new investments

This course is eligible for CPD accreditation (7.5 hours) with the ACCA and SRA.
